Adding a New Device in Quick Connection

Download or scan the QR Code and install the Smart Life App for either IOS or Android.

Step 1:

Step 2

Open the Smart Life APP and register your phone number or email

Step 3

Fill in the verification code that you have received and fill in the password. Sign in the APP

Step 4

Select the device type and click the "Electrical Outlet"

Step 5

Long press the power button for more than 5 seconds until the indicator light begin to flash quickly(2 times per seconds). This means the device is already for configuration.

Set-up

WARNING: DO NOT connect a device that exceeds the rated power for this smart power strip. Doing so may overheat or cause possible damage to the smart power strip or other equipment.

Plug this smart device into a powered wall socket and press the power button to turn on the smart power strip. Connect your desired electrical devices to the smart power strip, making sure to not overload the input current (10 A).

Note: Each USB port provides a maximum output current of 2.4A. The power strip, with all ports combined, provides a maximum output current of 4 A.

Troubleshooting

Problem	Cause	Solution
My device(s) will not charge or turn on.	Smart power strip is off	Check to make sure the power button on the smart power strip illuminated.
Strange odor or heat emitting from the smart power strip.	Product may be broken or defective.	Immediately unplug the power smart strip and discontinue use. Contact customer service.

Specifications

Power Supply	AC 100V-240V (50/ 60 Hz)
Max Power	2400W (240V / 10A)
Single Outlet Current	10A max
USB Output	4A max totally
Single USB Output	2.4A max
Ports	4 AC Outlets / 4 USB
Operation Temperature	-22°F~-129°F (-30°C~65°C)
Storage Temperature	-22°F~-140°F (-30°C~60°C)

Step 6

Open your APP and click the "Confirm indicator rapidly link"

Step 7

Make sure that your device is close enough to your WiFi router(The smart WiFi devices only support 2.4GHz), enter your WiFi password, click "Confirm" and it shows "Connecting Now".
